Serum Creatinine	1.05 mg/dL	0.70 - 1.20	NORMAL

AI-Suggested Discussion Questions for Your Physician

- 1. Should we consider adjusting my Glycomet-GP dosage or adding an SGLT2 inhibitor given my HbA1c is 7.4%?
- 2. Are there additional dietary or lifestyle interventions recommended for my elevated LDL (138 mg/dL)?
- 3. When should we schedule my next renal microalbuminuria and glycemic checkup?
